A WORD FROM THE AQUAPONICS ASSOCIATION

Dear Sponsors, Supporters, and Friends,

Great news! We're gearing up for the 14th Annual Aquaponics Conference, and this year, we're bringing it to the vibrant and dynamic Dallas, Texas, from September 12th-15th, 2024. We're partnering with fantastic local universities and farms this time, guaranteeing an enriching and memorable experience for everyone involved.

As you know, aquaponics has been steadily building momentum in the agricultural world for the last 20 years. Looking forward, we're expecting a strong annual growth rate of 12.9% through 2028, with North America leading the way. With traditional agriculture putting pressure on our natural resources, aquaponics stands out as a promising and sustainable alternative. There's so much potential here, and it's critical for us to understand and embrace the benefits that aquaponics offers, especially as it intersects with other industries and societal programs.

This year, we're continuing to build on the foundational themes of "Water, Energy, Food, and Communities." We believe these are key elements that will fuel the growth of the aquaponics industry, and our conference will delve into how these components can synergize for future success.

We truly appreciate your continued support. Your involvement is crucial in helping us make a positive impact in our communities and in the aquaponics industry. We're really looking forward to seeing you in Dallas this Fall and embarking on another exciting chapter together.

Warmly,

Molly Stanek
Executive Director

The Aquaponics Association
